Swann Communications warrants this product against defects in workmanship and material for a period of one (1) year from its original purchase date. You must present your receipt as proof of date of purchase for warranty validation. Any unit which proves defective during the stated period will be repaired without charge for parts or labour or replaced at the sole discretion of Swann. The repair or replacement will be warranted for either ninety days or the remainder of the original one year warranty period, whichever is longer. The end user is responsible for all freight charges incurred to send the product to Swann's repair centres. The end user is responsible for all shipping costs incurred when shipping from and to any country other than the country of origin. The warranty does not cover any incidental, accidental or consequential damages arising from the use of or the inability to use this product. Any costs associated with the fitting or removal of this product by a tradesman or other person or any other costs associated with its use are the responsibility of the end user. This warranty applies to the original purchaser of the product only and is not transferrable to any third party. Unauthorised end user or third party modifications to any component or evidence of misuse or abuse of the device will render all warranties void.

Introduction

The Maxi Day/Night Camera is a versatile weather resistant CCD Security camera that includes 24 Infra-Red LEDs that gives you the capability of viewing images produced under most lighting conditions, even at night. It can be used to provide your home or office with a clear picture that can be easily displayed on a DVR, TV, VCR or Security Monitor.

The Maxi Day/Night camera is designed for best performance when used with Swann DVRs and Security Monitors, but will just as easily work with your existing CCTV Equipment, TV, VCR or a Computer with a video capture card. The cameras can be used indoors or outdoors. The Maxi Day/Night cameras can be used for a variety of purposes including monitoring visitors, staff, property, vehicles, yard, shop or children's play area.

- This Quick Start Guide

*If any of these items are missing, please contact Swann for assistance.
For connection details consult the Easy Setup Guide included in the pack.*

Installing the Camera Hood

Installing the Camera Hood

To fit the Camera Hood use a small Philips Head screwdriver to remove the two screws from the top mounting block. Once these are removed, place the hood on top of the camera casing with the slots over the screw holes in the casing. Place the mounting block on top of the hood, then using the screwdriver screw the two screws back into the casing until the hood is firmly secured.
